### **RSV Grows with Addition of Project Management Staff Member**

**VANCOUVER, Wash.** – Vancouver-based [RSV Building Solutions](#) has hired a new project engineer, Devon Snider, to assist with project management for the construction firm that specializes in new construction, remodeling and maintenance, and tenant improvements.

“We are very excited to be expanding given the state of the local commercial construction industry,” said Ron Frederiksen, president of RSV Building Solutions. “Devon’s hands-on experience in construction and LEEDS certification will allow him to make immediate contributions to our clients and their projects.”

As a project engineer, Snider will be responsible for assisting project managers through the design/build process to project completion. His duties will include preparing scopes of work and preliminary budgets, monitoring project timelines, managing subcontracts, preparing meeting minutes and project manuals, and maintaining the estimating database.

Prior to joining RSV Building Solutions, Snider was a project engineer at Western Partitions and worked in various aspects of construction before that. He has a Bachelor of Science in construction management from Central Washington University.

**About RSV Building Solutions**

For more than 35 years, Vancouver-based RSV Building Solutions has become well known for managing complex new construction, remodeling and maintenance, and tenant improvement projects. Unique among general contracting firms, RSV routinely works with teams of highly skilled design-build professionals who collaborate to solve clients’ problems and to meet clients’ budgets and construction goals. RSV is among the area’s top 20 commercial construction companies, based on gross billings.
